GREEN TEAM NEWS

GREEN TEAM APPLICATIONS FOR 4TH AND 5TH GRADE

FOURTH and FIFTH grade students have received applications to be a part of Naldrett's Green Team. Being a part of this team includes attending monthly before-school meetings, collecting recycling, being a role model, and completing monthly challenges on Schoology.

KINDERGARTEN THROUGH THIRD GRADE FAMILIES

Check each month's newsletter for the GREEN TEAM Monthly Challenge. All families are invited to complete the monthly challenges.

Saving Energy

Save Electricity

You use a lot of **electricity** every day. Use only what you need. Don't turn on two lights if you only need one.

Remember to turn off the lights when you leave a room. Turn off the TV and video games, too. Unplug devices you aren't using. On a sunny day, read by a window. It's a simple way to save energy.

Keep the refrigerator door closed. Know what you want before you open the door. If you're pouring a drink, don't leave the door open. It takes a lot of energy to cool things.

If the air conditioner is on, keep doors and windows closed. Don't go in and out, in and out. If you can, just use a fan and wear light clothes instead of using the air conditioner.

When you leave a room, remember to turn the lights off.

Save Gasoline

It takes a lot of energy to operate a car. Walk or ride your bike wherever you can. If you and some of your friends are going to the same place, go together, or carpool. Take the bus instead of asking for a ride to school.

Save Heat

It takes a lot of energy to heat houses and water. If the heat is on, keep doors and windows closed. Wear warm clothes instead of turning up the heat. At night, use blankets to stay warm.

When you take a bath, use only the water you need. Don't stand in the shower for a long time. Heating water uses energy.

You Can Make a Difference

The things you do every day make a difference. If everyone saves just a little energy, it adds up to a lot. When you save energy, you save money, too. You have more money to spend on other things.

Saving energy also helps protect the environment.

Saving Energy

Most of the energy we use today comes from coal, oil, and natural gas. They are **fossil fuels**. They take millions or even hundreds of millions of years to form. We can't make more quickly. They are **nonrenewable**. We need to save energy whenever we can. You can help.

Reduce

A good way to save energy is by not wasting things. Don't use paper plates or cups all the time. You only use them once—then throw them away. Write on both sides of your paper. Use a lunch box and reusable bottle instead of paper bags and boxed drinks.

Buy a small can of frozen juice to make at home instead of buying a large carton that you have to throw away. Buy one big bag of chips—not ten little ones. **Reducing** waste saves energy. It takes energy to make things and to get rid of them. Buy things without a lot of packaging. Some candy has more plastic wrapping around it than food in it. What a waste!

Reuse or Repair

Try to use things more than once—**reuse** them. Wash out plastic containers and use them again. Use the comics from newspapers to wrap presents. Buy toys and games at yard sales or exchanges and you can save energy and money, too.

Paint an old bike instead of buying a new one. Repair broken or fix old things whenever you can. Give your old clothes and toys to someone who needs them—don't throw them away.

Recycle

You can **recycle** lots of things—cans, paper, glass, and plastic. It only takes a minute to recycle, and it saves energy. It takes a lot of energy to dig up metal and make a can. It only takes a little energy to make a new can from an old one. Cans can be recycled over and over again.

Plastic bottles can be recycled into more plastic bottles, clothes, shoes, and rugs. Paper can be recycled into boxes and bags. Don't throw away anything you can recycle.

Saving Energy Selfie

Read the “Saving Energy” section of the *Elementary Energy Infobook*. Describe four ways you can use less electricity or less energy when you’re at home. Choose your favorite idea and take a selfie of yourself in action. Print your photo and attach it below. Or, draw your selfie in action saving energy at home.
